Allen County Public Library Genealogy Center

PREFACE.

This Series aims, by a County system, at printing the whole of the Parish Registers in England (except such as have been already printed by others), dealing in the first instance with the Marriages, from the beginning of each Register down to the commencement of Civil Registration in 1837.

1379151

The Marriage entries are by far the most important part of every Register—Marriages being much the most numerous of the missing links in pedigrees, at the same time they are the most difficult to discover, owing to the uncertainty of their whereabouts—if anything at all is known of a family it is usually known where to look for most of its baptisms or burials—but this rule does not apply to its matrimonial alliances. Hence the need of first printing the marriages of the whole of each county, and so not only preserving that portion of the Registers from the risk of total loss, but making them more accessible to the genealogical student.

This scheme was started by MR. PHILLIMORE in 1897, and such progress has been made that in some counties about half the parishes have already been printed. In those counties, where the marriage entries in the registers of a large co-terminous area have thus been made accessible (as, for instance, in Nottinghamshire, where all the southern half of the county has been done), the printed volumes have proved to be the *key* to the genealogy of nearly all the families in that district. It is easy to get the baptisms and burials when once all the Marriages and the places of their registration have been found.

The importance of the Marriages is very evident in the scientific genealogy of the present day, when much more attention is paid to the various maternal descents than was formerly the case.

In Huntingdonshire there are 95 parishes having Registers beginning before the nineteenth century. It is calculated that the Marriage Registers of these can be printed in twelve volumes, of which the present is the first, so that if sufficient financial support is forthcoming to enable two volumes a year to be issued, as in other counties, it is possible to complete the whole county in six years. To enable this to be done thirty more subscribers are needed. Fifteen more parishes, including the four comprised in the town of Huntingdon, besides Godmanchester and St. Ives, are already transcribed, and could be sent to press at once.

As a multiplicity of indexes is a great evil, it is intended to issue one common index to the whole county on the completion of the work.

The thanks of the Editors and Subscribers is due to the various clergy who have given permission for their Registers to be copied and printed in the present Volume. Their names are mentioned under their respective parishes.

The principal contractions used in these abstracts are—

b.—bachelor.	s.—spinster, or single.
lic.—by licence.	w.—widower, or widow.
p.—parish of.	

As the entries are printed as abstracts, and not *verbatim* copies, in most cases Christian names have been modernised in spelling to obviate the erroneous ideas as to differences, etc., to which the retention of the irregular spelling frequently gives rise.

It should be remembered that previous to 1752 the year was calculated as beginning on the 25th of March, instead of the 1st of January, so that a Marriage taking place on, say, 20th February, 1625, would be on that date in 1626 according to our reckoning; but as the civil and ecclesiastical year were both used, this is sometimes expressed by 20th February, 162 $\frac{5}{6}$.

In all cases where the marriage is stated to have taken place by Licence, that fact is recorded, as the searcher thereby knows that further information as to the age, parentage, and vocation of the parties is probably recoverable from the Allegations in the Archdeaconry or other office from which the Licence was issued.

It may be well to remind the reader that these printed abstracts of the Registers are not legal "evidence." For certificates application must be made to the local clergy.

W. P. W. P.

Huntingdonshire Parish Registers.

Marriages at Ramsey,

1559 to 1837.

NOTE:—These Marriages are contained in nine volumes:—

Volume I measures $12\frac{1}{2}$ by $10\frac{1}{2}$ inches, consisting of 49 leaves of parchment, bound in leather, which contains entries of Baptisms, Marriages and Burials from 1559 to 1642. The earlier part is merely a transcript of the original paper register.

Under the year 1590 is a note to the effect that no marriages were recorded that year in the old register.

Under the year 1559 occurs, "md. that all the marriages sett down in the last year 1598 from William Cakebread unto the ende were solempnized in this year, 1599, and therefore not rightly sett downe in the olde papere booke."

The entries for 1630 and part of 1631, occur twice, the only variation of importance is that, in one we have under date July 12th, Thomas Wisditch, in the other Thomas Wisbech; Wisditch was a Ramsey name, so it was probably correct, though Wisbech is written quite distinctly in the second copy. Baselye for Baselyne, and Nadye for Neding are other differences. There are no entries between 1642 and 1653. A study of the list of marriages at Little Raveley may partly account for this—possibly few marriages were solemnized at Ramsey during this period.

Volume II measures 14 by 9 inches and consists of 38 leaves of parchment and one of paper. It contains entries of Baptisms, Marriages and Burials from 1653 to 1673.

Volume III measures 14 by 10 inches, and contains 49 leaves of parchment. It contains Baptisms, Marriages and Burials from 1673 to 1737. On the second leaf of this register occurs:—

"Note that ye last Parchment Register, being full of Names, &c. (Mr. Robins, then curate being sick), the Names aforesaid were written in loose Papers and as many as I could find after his Decease were inserted in ys. Register and yt. delivered into ye Court Registry.—Transcribed per me Edmond Gibbs, successor proxd."

On folio 3, anno 1674:—

"Note yt. ye Register of Marriages was losst (among many other loose papers) in Mr. Robins his sickness, &c."

The date of the first marriage recorded in this book is 1683, doubtless a mistake for 1673.

HUNTS.—I.

Volume IV is a large leather-bound volume, 17½ by 13½ inches, containing 157 leaves, of which leaves 81 to 156 are blank and leaves 77 to 80 and 157 contain particulars of perambulations of the parish boundaries. The whole volume contains entries of Baptisms, Marriages and Burials from 1738 to 1812. Thus it will be noticed that many marriages are recorded in duplicate in this and the subsequent volumes. On the other hand several entries occur in this book which are not to be found in Vols V, VI and VII. These entries are specially distinguished in the following abstract, in making which all the volumes have been collated.

Volume V is the ordinary book of forms of 1754. It contains Marriages and Banns from 1754 to 1778.

Volume VI contains Marriages and Banns from 1778 to 1801.

Volume VII contains Marriages and Banns from 1801 to 1812.

Volume VIII contains Marriages from 1813 to 31 March, 1836.

Volume IX contains Marriages from 8 April, 1836 to 26 June, 1837.

These abstracts have been made by the Rev. W. M. Noble, Rector of Wistow, and are now printed under his supervision by permission of the Rev. J. R. Pawley-Smith, Vicar of Ramsey.

Marriages at Little Raveley,

1577 to 1839.

These marriages are contained in four volumes :—

Volume I is of parchment, bound, about $7\frac{3}{4}$ inches by $6\frac{1}{8}$ inches. The date as given on the first page seems to be 1598, and someone at a later period has inserted 1598 below this date, but it is probably intended for 1578, or else 1598 may have been intended as the date of making the copy.

The book is paged throughout, but pages 5-8 are missing : one of these must have contained, if copies were ever made, the entries of Baptisms earlier than 1595.

The Burial and Baptismal entries 1596-1630 and 1605-30, respectively, are copies.

A few leaves of the original register from which this 1598 transcript was made were purchased from a second-hand bookseller by Dr. Grove of St. Ives and generously restored to the parish by him about the year 1900. They are loosely inserted at the beginning of this volume.

This volume continues for Baptisms to 1782, Burials to 1782, and Marriages to Feb. 1748.

A curious fact should be noticed :— though many years passed without a single marriage being entered, yet the period 1643-61 contains a very large number, no less than 24 in 1645.

The gaps in the Ramsey and Warboys registers may be partly filled from these entries.

John Robins, Perp. Curate of Ramsey, was ejected as early or perhaps earlier than 1651, and his place taken by Henry Marshall ; Wm. Johnson, Rector of Warboys, supplied the cure by Mr. Dearsley, though there is no statement that Mr. Johnson was ejected.

Wm. Baker, Rector of Wistow, was ejected ; but Wm. Sheffield, curate of Little Raveley, was able to hold his post—perhaps because Little Raveley was a small out-of-the-way place, perhaps because some of the administrators of the law were inclined to be lenient and to allow people to be married by a clergyman instead of by a magistrate, if they wished it, but most probable because Wm. Sheffield was a relative of Lord St. John.

Be this as it may, Wm. Sheffield was curate of Little Raveley from about 1638 to 1667, and was appointed Register of the parish by Mr. Stephen Pheasant, J.P., 12 May, 1654, and during the period of unrest—1643-61—celebrated a number of marriages far out of proportion to the population of the parish of which he was curate.

The marriages from T. Gregorie, 25 April, 1661, to Dec. 29, 1661, should evidently be dated 1662.

After 1667 the entries are in such disorder that they are given as they occur in the Register, not in chronological order.

Volume II. contains Marriages, 1756-1808.

Volume III. contains Baptisms, 1793-1801, and Burials, 1800-12.

Volume IV. contains Marriages, 1813 to Dec. 2, 1839.

These abstracts have been made by the Rev. W. M. Noble, Rector of Wistow and Vicar of Little Raveley, and are now printed under his supervision.

Marriages at Bury,

1561 to 1837.

The marriage entries at Bury prior to 1837 are contained in four volumes as follows:—

Volume I is of parchment, bound in parchment boards, and covers the period 1561-1696 for Baptisms and Burials, but there are very few Marriage entries after 1647. It is quite obvious that the Register has been very carelessly kept during the latter half of the 17th century, particularly as regards marriages.

The portion 1561-98 has been copied from an earlier book, and is in the excellent hand writing of the end of the 16th century.

This Book was lost, but was restored to the Parish during the Incumbency of the Rev. J. B. Patrick, having been found in a bookseller's shop in London.

For the period 1651-1680 no name of any Incumbent has been found, and there is some uncertainty as to the Incumbents 1680-1695; this may perhaps account for carelessness in Register-keeping. There is no appearance of any pages having been cut out.

Some entries from transcripts are given by kind permission of Canon Foster; the transcripts for the period after 1672 are in the custody of Mr. C. B. Margetts, Registrar of the Archdeaconry of Huntingdon.

Volume II is of parchment, bound in calf. It includes Baptisms and Burials 1707-1812, and Marriages from 1707 to 1764, thus showing a *hiatus* 1696-1706, between Vols. I and II.

The Incumbents during this period were Wm. Torkington, appointed 1695, and Thomas Pike, 1699-1707. John Pike was appointed 1707, when the register commences, but it is singular that some leaves appear to be missing at the beginning, and that the register commences at the date of a fresh Incumbency.

Volume III is the Official Register 1754-1812, the first ten years covering the same period as part of Vol. II.

Volume IV. is the Official Register 1813-37.

These Marriages have been copied by the Rev. W. M. Noble, by permission of the Rev. A. T. C. James, the late, and the Rev. J. R. Pawley-Smith, the present Vicar of Bury.

Marriages at Wistow,

1604 to 1837.

The marriage entries in the registers prior to 1837 are contained in four volumes :—

Volume I is of parchment, containing 31 leaves, measuring 11½ in. by 8 in., it is bound in parchment, and covers the period 1628-1707, with entries, Baptisms or Burials in 1709.

From an examination of the volume it looks as if there had been an earlier book in the same cover, which has been lost. There is no heading as usual at the beginning of a register. The first page is headed "Christenings, 1628 and 1629" (no name of parish).

Baptisms Dec., 1628—Dec., 1668, occupy the first 18 pages, then come Marriages 1629-1668, seven pages, then one page of briefs, "wypings" [whippings], &c., then Burials 1628-1668, then follow Baptisms, Marriages and Burials 1669-1707, with entries (damaged in 1709).

There is no *hiatus* between Baptisms and Marriages, or between briefs and Burials, so this is a complete book as far as it goes.

Parts of five leaves, Burials 1638 to end of Burials, are missing, and eight consecutive leaves at the end of the book are damaged.

The entries from towards the end of 1632 to April, 1639, are apparently in the handwriting of Philip Cromwell, a first cousin of the Protector, who was Rector 1632-1642.

Volume II is of parchment, containing 38 leaves, 36 of these are 13½ in. by 8½ in.; two leaves, 1783-1785, inclusive, are 12½ in. by 8 in. This book covers the period 1715-1812 for Baptisms and Burials, and 1715 to 1753 for Marriages.

Pinned in at the beginning are three pieces of paper—the first is an account of the Town Stocke in 1694; the second contains entries about the Sewster family; the third a record of Baptisms, Marriages, and Burials Feb., 1705-Feb., 1714/15, evidently incomplete. There is also a slip of parchment containing Baptisms, Marriages, and Burials for 1707. Page 2 has an entry of a brief for Marlborough, 1653. The last four pages contain accounts of legacies to the poor of Wistow.

Volume III is the Official Register, 1754-1812.

Volume IV. is the Official Register, 1813-1837.

Some earlier entries—1604 to 1626—have been recovered from the Transcripts, and are here printed before the Marriages from the Registers proper, beginning in 1629.

These extracts have been made by the Rev. W. M. Noble, the present Rector of Wistow, and are now printed under his supervision.
